WFTU Statement for the racist presidential decree of USA Government

The WFTU representing 92 million workers in every corner of the world strongly condemns the racist presidential decree of USA Government which prohibits the entry of travelers from seven countries (Syria, Somalia, Sudan, Iran, Iraq, Libya, Yemen) in USA blaming them for "Islamic terrorism", separating the peoples of the world according to religion.

Has President Trump forgotten that the ISIS was created, was financed, was armed and was supported by the USA governments headed by President Obama? The USA policy was the one that bloodied the peoples in Syria, Libya, Afghanistan, Iraq and elsewhere.

Racism and intolerance promoted by the capitalists and their governments intend to separate and to group the workers of the world turning against each other and not against them and their class.

In their effort, the capitalists exploit the terrorist attacks in Turkey and European countries and the recent murder of six Muslims while praying in Quebec, Canada. Ultimately aiming to take new measures against the peoples' struggles and those who are resisting the plans of the imperialists.

The World Federation of Trade Unions, loyal to its internationalist principles, calls the workers of the world, regardless of religion, color and language to unite themselves under the banners of the class-oriented organizations and struggle against their common enemy, the capitalists and their class for a world without wars, poverty and racism. For a world without exploitation of man by man.

The WFTU demands the racist decree against the 7 countries to be withdrawn and expresses its solidarity to the families of the six Muslims that unjustly lost their lives in Quebec.
